#### Two Ships Lost.

London, Nov. 25.—The German  
navy is reported to have lost a sub-  
marine and a torpedo boat destroyer.  
From the British Admiralty comes  
the report that the submarine boat  
U. 18 was rammed off the north  
coast of Scotland by a patrolling ves-  
sel and foundered as the result; and  
from Copenhagen comes a dispatch  
that the Danish steamer Anglodane  
collided last night with the German  
torpedo boat destroyer S. 124, which  
was sunk. The secretary of the  
British Admiralty announces that  
the patrolling ship rammed the sub-  
marine at 12:20 o'clock this after-  
noon. The U. 18 was not seen again  
until 1:20, when she appeared on the  
surface flying a white flag. Shortly  
after this she floundered just as the  
British destroyer Gery came along-  
side. The destroyer rescued three  
officers and twenty-three of the sub-  
marine's crew, only one being  
drowned.

#### \$100 Reward, \$100

The readers of this paper will be  
pleased to learn that there is at least one  
dreaded disease that science has been  
able to cure in all its stages, and that is  
Catarrah. Hall's Catarrah Cure is the only  
positive cure now known to the medical  
fraternity. Catarrah being a constitutional  
disease, requires a constitutional treat-  
ment. Hall's Catarrah Cure is taken in-  
ternally, acting directly upon the blood  
and mucous surfaces of the system, there-  
by destroying the foundation of the dis-  
ease, and giving the patient strength by  
building up the constitution and assisting  
nature in doing its work. The proprietors  
have so much faith in its curative pow-  
ers that they offer One Hundred Dollars  
for any case that it fails to cure. Send  
for list of testimonials.

and was put up by Christian and

"I am a painter and paperhanger by  
trade, consequently up and down lad-  
ders. About two years ago my left knee  
became lame and sore. It pained me at  
nights at times till I could not rest, and  
I was contemplating giving up my trade  
on account of it when I chanced to think  
of Sloan's Liniment. I had never tried  
it before, and I am glad to state that  
less than one 25c. bottle fixed me up  
apparently as good as ever."—Charles C.

of intimidation, and it was alleged

# CLOTHING SITUATION!

The great European war is going on with all the fury, bloodshed and destruction that powder and lead is capa-  
ble of doing, but so far it hasn't affected the clothing business of this country from the fact that 90 per cent. of  
all woollens manufactured in clothes are made in America, and we are able to sell you a Suit or Overcoat just as  
cheap as during any previous season. For instance take the Clothcraft people, before they will purchase a piece  
of woollen they make a chemical test---boil it down and if a thread of cotton is found in it, it is fired back to the  
mills. That is the reason we advertise **ABSOLUTELY PURE WOOL CLOTHES.**
